

1. Record Nr.	UNINA9910412335403321
Titolo	APCIM & ICTTE 2018 : proceedings of the Asia-Pacific Conference on Intelligent Medical 2018 & International Conference on Transportation and Traffic Engineering 2018 // Association for Computing Machinery
Pubbl/distr/stampa	New York, New York : , : Association for Computing Machinery, , 2018
Descrizione fisica	1 online resource (350 pages) : illustrations
Collana	ACM international conference proceedings series
Disciplina	006.33
Soggetti	Expert systems (Computer science) Intelligent transportation systems Medical informatics Traffic engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	World is witnessing major changes in intelligent technologies, including the intelligent medical and transportation and traffic engineering to cope with community development and financial mandates. 2018 Asia-Pacific Conference on Intelligent Medical and 2018 7th International Conference on Transportation and Traffic Engineering has been held in Beijing, China on December 21-23, 2018. APCIM & ICTTE 2018 provided opportunities for discussions about methods, technologies, systems and bet practices in the different areas of intelligent medical, transportation and traffic engineering from different places around the world contributing for a new and better vision of life in cities. This conference provided opportunities for the delegates to exchange new ideas and application experiences face to face, to establish business cases or research relations and to find global partners for future collaboration.
