

1. Record Nr.	UNINA9910412460203321
Autore	Menzies Tim
Titolo	Proceedings of the 7th International Workshop on Realizing Artificial Intelligence Synergies in Software Engineering // Tim Menzies, Burak Turhan
Pubbl/distr/stampa	Piscataway, NJ, USA : , : IEEE Press, , 2019
Descrizione fisica	1 online resource (65 pages) : illustrations
Disciplina	006.3
Soggetti	Artificial intelligence
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	RAISE 2019 is a crossover event where the state of the art in SE+AI documented and extended. This workshop series explore not only the application of AI techniques to SE problems but also the application of SE techniques to AI problems. We hope that RAISE 2019 will encourage a growing number of researchers to join this area.
