

1. Record Nr.	UNINA9910416090903321
Autore	Tietjen Jill S
Titolo	Scientific Women : Re-visioning Women's Scientific Achievements and Impacts // by Jill S Tietjen
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2020
ISBN	3-030-51445-5
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (208 pages) : illustrations
Collana	Women in Engineering and Science, , 2509-6427
Disciplina	509.252
Soggetti	Technology—History Women History History of Technology Women's Studies History, general
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Chapter 1. Introduction -- Chapter 2. History of Science -- Chapter 3. The Fight for Educational Equality -- Chapter 4. War Brings Opportunities -- Chapter 5. Sputnik Signals a New Kind of War -- Chapter 6. Science in the New Millenium.
Sommario/riassunto	The book highlights women's contributions to science, which have often been marginalized and overlooked throughout history. The book first provides an overview of the development of the various science professions over time - placed in socioeconomic and cultural contexts - and women's role in the sciences throughout history. The author then exemplifies - through history, example, and case studies - that although women were denied a scientific education until fairly recently in our history, they have nevertheless demonstrated intellect and capability in mathematics, physical sciences, life sciences, social sciences, and computer sciences throughout time. Biographies of women who contributed to these fields since before the Common Era are interwoven into a discussion of the development of the scientific profession, the advancement of education, the professionalization of

the various scientific occupations, and the advancement of women in society. This book is a follow up to the author's book "Engineering Women: Re-visioning Women's Scientific Achievements and Impacts" (Springer 2017). The author, Jill Tietjen, is the series editor for Springer's Women in Engineering and Science book series. Illuminates the many significant contributions of women in the sciences; Educates readers about the evolution of women's participation in the scientific fields over the last century; Demonstrates how key scientific advances are driven by socio-economic and cultural contexts.
