

1. Record Nr.	UNINA9910416097903321
Titolo	Conservation and Reintroduction of Rare and Endangered Plants in China [[electronic resource] /] / edited by Hai Ren
Pubbl/distr/stampa	Singapore : , : Springer Singapore : , : Imprint : Springer, , 2020
ISBN	981-15-5301-7
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (233 pages)
Disciplina	581.5290951
Soggetti	Plant science Botany Biodiversity Plant ecology Plant Sciences Plant Ecology Protecció de les plantes Llibres electrònics Xina
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Part 1. Plant diversity and its conservation in China -- Chapter 1. An overview of China's vegetation and plant diversity -- Chapter 2. The rare and endangered plants in China -- Chapter 3. In situ and ex situ conservation of Chinese plants -- Chapter 4. Reintroduction of rare and endangered plants in China -- Part 2. Reintroduction cases of rare and endangered plants in China -- Chapter 5. Reintroduction of <i>Primulina tabacum</i> Hance, a critically endangered Calciphilous perennial herb, in southern China -- Chapter 6. Artificial propagation and reintroduction of <i>Dayaoshania cotinifolia</i> W.T. Wang -- Chapter 7. Reintroduction of <i>Tigridiopalma magnifica</i> C. Chen, a critically endangered endemic plant, in southern China -- Chapter 8. Reintroduction of <i>Camellia changii</i> Ye (Theaceae), a critically endangered plant endemic to southern China -- Chapter 9. Conservation translocation of the rare and endangered tree <i>Euryodendron excelsum</i> in South China -- Chapter 10. Conservation translocations of <i>Manglietia</i>

longipedunculata, a critically endangered tree in South China -- Chapter 11. Reintroduction of *Parakmeria omeiensis* Cheng, a critically endangered endemic plant, in Southwest China -- Chapter 12. Reintroduction of *Hopea hainanensis* Merr. et Chun, a wild plant with extremely small populations, in southern China -- Chapter 13. Reintroduction of *Trigonobalanus doichangensis*, a threatened plant species with extremely small populations -- Chapter 14. Reintroduction of *Craigia yunnanensis* to private plots, an innovated case with help from local volunteers -- Chapter 15. Reintroduction of *Myricaria laxiflora* (Franch.) P.Y. Zhang et Y.J. Zhang, a critically endangered shrub, in central China -- Chapter 16. Reintroduction of *Bretschneidera sinensis* Hemsl. an endangered endemic tree -- Chapter 17. Reintroduction of *Paphiopedilum wardii* Sumerh, an endangered terrestrial orchid in China -- Chapter 18. Reintroduction and assisted colonization of *Paphiopedilum spicerianum*: An orchid with extremely small populations in China -- Chapter 19. Orchid conservation translocation efforts in China -- Chapter 20. Reintroduction of wild *Cycas* species in China.

---

### Sommario/riassunto

The book offers a comprehensive review of the advances in conservation and the reintroduction of rare and endangered plants in China. It systematically discusses plant diversity, in situ and ex situ protection and plant reintroduction in China, including the reintroduction species list and orchid plant reintroduction up to November 2019. A useful reference resource for students, instructors and scientific researchers in the field of wild plant protection, botany, biodiversity protection, and natural land protection and management, the book also provides valuable insights for government departments involved in plant management.
