	ISBN	1-000-21890-2 0-429-11138-X 1-4398-8694-6
	Edizione	[1st ed.]
	Descrizione fisica	1 online resource (463 p.)
	Collana	Advances in materials science and engineering
	Classificazione	MED009000SCI013000TEC021000
	Altri autori (Persone)	ZhangSam
	Disciplina	610.28/4 610.284
	Soggetti	Biomedical materials Hydroxyapatite coating - Therapeutic use
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Description based upon print version of record.
	Nota di bibliografia	Includes bibliographical references and index.
	Nota di contenuto	Front Cover; Contents; Series Preface; Preface; Editor; Contributors; Chapter 1 - Magnetron Sputtering Deposition of Chemically Modified Hydroxyapatite; Chapter 2 - Electrochemical Deposition of Hydroxyapatite and Its Biomedical Applications; Chapter 3 - Simultaneous Incorporation of Magnesium and Fluorine Ions in Hydroxyapatite Coatings on Metallic Implant for Osseointegration and Stability; Chapter 4 - Zinc- and Fluorine-Doped HA Coatings via Sol-Gel Method; Chapter 5 - Biomimetic Hydroxyapatite Materials for Therapeutic Delivery Chapter 6 - Apatite-Coated Polymer Template for Implant and Drug DeliveryChapter 7 - Biofunctionalization of NiTi Shape Memory Alloy Promoting Osseointegration by Chemical Treatment; Chapter 8 - Investigation and Application of HA Composite Coating on the Ti Alloy; Back Cover
	Sommario/riassunto	This handbook covers developments in processing and property characterization and applications of Hydroxyapatite (HA), providing a timely resource for active researchers and newcomers to the field. It details HA coatings and use in dental implants, biomimetic HA materials, electrochemical and pulsed laser deposition, drug delivery,

and more. In an approach that differs from traditional handbooks, it contains more than just data such as tables and figures. It is written in such a way that seasoned professionals at every level will find it a valuable data source that gives them indispensable help in their research--
