Titolo	China's Electricity Industry : Past, Present and Future / / by Ma Xiaoying, Malcolm Abbott
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2020
ISBN	3-030-53959-8
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (93 pages) : illustrations
Collana	SpringerBriefs in Energy, , 2191-5520
Disciplina	333.79320951
Soggetti	Environmental economics Energy policy Electrical engineering Environmental Economics Energy Policy, Economics and Management Electrical Engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Introduction -- The Economics of Electricity -- The Historical Construction of the Electricity Industry in China -- Structure and Reform -- Renewable Energy -- The Future -- Conclusion: The Way Forward.
Sommario/riassunto	This book provides a comprehensive account of the electricity industry in China, the world's largest power producer and carbon emitter. The authors describe the historical development of China's energy sector and study the structure and economics of the industry. Furthermore, the book studies the impact of China's substantial demand for coal, oil and natural gas on world energy markets and discusses future trends and reforms, such as the introduction of renewable energy sources. This book will appeal to anyone interested to broaden their knowledge on the past, present and future of Chinese electricity industry.
