Nota di contenuto	Book Cover; Title; Contents; Preface; Introduction; SHAW'S FABIANISM; SHAVIAN SOCIALISM; SEXUAL EQUALITY; THE IRISH QUESTION; WAR AND PEACE; FASCISM AND SOVIETISM; CONCLUSION; Notes; Bibliography; Index
Sommario/riassunto	Available in paperback for the first time, Gareth Griffith's book provides a comprehensive critical account of the political ideas of one of the most influential commentators of the twentieth century. With close reference to a range of Shaw's texts, from the Fabian tracts to the plays, Gareth Griffith draws out the central theoretical messages of Shaw's engagement with politics. The first part of the book provides an intellectual biography, while at the same time analysing Shaw's key concerns in relation to his Fabianism, arguments for equality of income and ideas on democracy and education

Titolo	Bioactive Compounds : biosynthesis, characterization and applications / / edited by Leila Queiroz Zepka, Tatiele Casagrande Do Nascimento, Eduardo Jacob-Lopes
Pubbl/distr/stampa	London : , : IntechOpen, , 2021
Descrizione fisica	1 online resource (304 pages) : illustrations
Disciplina	363.7288
Soggetti	Bioactive compounds
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Bioactive Compounds - Biosynthesis, Characterization, and Applications is an authoritative compilation of chapters on bioactive compounds with proven activities. It provides valuable information about biosynthesized active compounds that can be used for the further development of products in various industries. Chapters cover such topics as biosynthesis, characterization, separation, and purification, and applications of bioactive molecules. It describes and discusses bioresources of animal, vegetal, and microbial origin as potential sources of flavonoids, polysaccharides, sterols, polyphenols, amino acids, and others. This book provides insight into future developments in the field and, as such, is an essential resource for academicians, industrial researchers, and practitioners in biomolecules with biological activity. Key features: - Describes several classes of bioactive compounds and their associated activities - Highlights potential contributions of bioactive compounds as alternatives in the prevention and/or treatment of diseases - Contains information relevant to the development and use of new products.

Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	"The second edition of Equine Reproductive Procedures provides equine practitioners, veterinary students, and equine theriogenologists with a fully updated, practical guide to techniques in equine reproductive practice. This easy-to-use resource covers skills-based information with a clinical focus, taking an easy-to-follow step-by-step approach. The book covers topics related to the reproductive management of horses, including diagnostic techniques and therapeutic procedures for stallions, mares, and foals. Procedures highlighted in the book are supported with clear descriptions and photographs. Readers will also find a list of required supplies for the procedure and a reference list"--

Sommario/riassunto

This volume presents comparisons of adult education and lifelong learning with a focus on educational policies, professionalization in adult education, participation in adult learning and education, quality in adult education, and educational guidance and counselling. The essays are based on comparisons discussed at the international Winter School «Comparative Studies in Adult and Lifelong Learning», held in Wurzburg, Germany, February 2015. Sub-topics of lifelong learning were chosen for an in-depth comparison and analysis of the situation in various European countries and beyond.
