Sommario/riassunto	This book presents outstanding articles addressing various aspects related to the ancient Silk Road, in particular the cultural, political, and economic interactions that took place among the civilizations and

cultures on the Eurasian continent. In addition, the articles help to reveal the hallmark features of cultural communication in Inner Asia in different historical periods. The book develops a new approach to studying the civilizations of the Silk Road, promotes interdisciplinary and multi-dimensional research, sets a new direction for Chinese ancient classics and western sinology, and presents the latest discoveries, including both archaeological finds and historical documents.
