

1. Record Nr.	UNINA9910420952503321
Titolo	Adipocytic, vascular and skeletal muscle tumors : a practical diagnostic approach // Raf Sciot; Clara Gerosa; Gavino Faa
Pubbl/distr/stampa	Cham, Switzerland : , : Humana Press, , [2020] ©2020
ISBN	3-030-37460-2
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (XI, 182 p.)
Collana	Current Clinical Pathology, , 2197-781X
Disciplina	616.07
Soggetti	Pathology Oncology Tumors - Diagnosis
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction -- A drawing-based approach to the diagnosis of soft tissue tumors -- Adipocytic tumors -- Vascular soft tissue tumors -- Skeletal muscle tumors -- Conclusions.
Sommario/riassunto	This book focuses on the subsets of soft tissue tumors that show adipocytic, vascular or skeletal muscle differentiation. It reviews the surgical pathologists' approach to diagnosing soft tissue tumors guided by vital morphological and immunohistochemical data in the differential diagnosis of this family of tumors. Written by experts in the field, the text contains a concise yet comprehensive summary of the current status of the field that helps guide diagnosis and patient management, and stimulates investigative efforts. The book is filled with high-quality drawings of the salient histologic features of these various tumors, alongside photomicrographs and tips and tricks that help the relatively untrained or inexperienced eye to recognize the various structures or cell types that comprise each of these lesions. This innovative approach seeks to make recognition of these tumors easier. Adipocytic, Vascular and Skeletal Muscle Tumors serves as a valuable resource for pathologists, oncologists, surgeons, and researchers dealing with and interested in these complex and challenging tumors.
