

1. Record Nr.	UNINA9910424564403321
Titolo	Models and analysis of vocal emissions for biomedical applications : 11th International Workshop, December 17-19, 2019, Firenze, Italy / / edited by Claudia Manfredi
Pubbl/distr/stampa	Firenze : , : Firenze University Press, , 2019
Descrizione fisica	1 online resource (268 pages) : illustrations; digital, PDF file(s)
Collana	Proceedings e report ; ; 122
Disciplina	612.78
Soggetti	Speech Voice Biological models
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	The International Workshop on Models and Analysis of Vocal Emissions for Biomedical Applications (MAVEBA) came into being in 1999 from the particularly felt need of sharing know-how, objectives and results between areas that until then seemed quite distinct such as bioengineering, medicine and singing. MAVEBA deals with all aspects concerning the study of the human voice with applications ranging from the neonate to the adult and elderly. Over the years the initial issues have grown and spread also in other aspects of research such as occupational voice disorders, neurology, rehabilitation, image and video analysis. MAVEBA takes place every two years always in Firenze, Italy. This edition celebrates twenty years of uninterrupted and successfully research in the field of voice analysis.
