Sommario/riassunto	This volume explores the topics of adult learning and education through the specific lens of comparative research. The book is divided into four chapters comprising two parts: an analytic essay followed by an anthology of readings from a selection of key texts intended to illustrate different perspectives, theories and/or approaches from varying perspectives in different countries. The book represents the

second of a series dedicated to adult learning and education and developed within the ESRALE European project. Its companion books are: *Empirical Research Methodology in Adult Learning and Education*. *Authors and Texts and Researches in Adult Learning and Education: the European dimension*.
