

1. Record Nr.	UNINA9910424644003321
Titolo	Encyclopedia of behavioral medicine // Marc D. Gellman, editor
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2020] ©2020
ISBN	3-030-39903-6
Edizione	[2nd ed. 2020.]
Descrizione fisica	1 online resource (109 illus., 74 illus. in color. eReference.)
Collana	Springer reference
Disciplina	610.3
Soggetti	Medicine and psychology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Health psychology -- Health promotion and disease prevention -- Aging and quality of life -- Nutrition and exercise -- Behavioral cardiology -- Behavioral oncology -- Behavioral orthopedics and sports medicine -- Sexual and reproductive health -- Adolescent and women's health -- Chronic disease, pain, and disability -- Psychoneuroimmunology -- Stress and coping -- HIV/AIDS -- Public health -- Epidemiology -- Healthcare policy and administration -- Genetics and genomics as they apply to risk factors and morbidity -- Complementary and alternative medicine -- Eating disorders, including obesity -- Substance abuse and addictive behavior (alcohol, drugs, tobacco) -- Depression, anxiety, other mental health issues -- Behavioral medicine education and training -- Behavioral medicine research methodology, design, implementation, interpretation, and reporting.
Sommario/riassunto	From Neil Schneiderman's Foreword: Because behavioral medicine has been constructed based on the understanding of relationships among behavior, psychosocial processes, and sociocultural contexts, the field is well positioned to take a leadership role in informing future health care policies. The field of behavioral medicine appears to have a bright, important future.... A small sampling of entries from Encyclopedia of Behavioral Medicine: Abuse, child; Active coping; Adherence; Adrenaline; AIDS; Back pain; Behavioral medicine; Benefit-risk estimation; Binge eating; Bogalusa Heart Study; Cachexia; Cancer

prevention; Cancer, testicular; Children's Health Study; Chronobiology; Coping strategies; Database development and management; Death, assisted; Developmental disabilities; Diabetes; Disparities; Eating disorders; Ecosocial theory; Effect modification; End-of-life care; Epigenetics; Expressive writing and health; Fall risk behavior; Family practice/medicine; Family, relationships; Fatigue; Foot care; Functional somatic syndromes; Galvanic skin response ; Gender differences ; Gene-environment interaction; Genetic polymorphisms ; Genital herpes ; Hamilton Anxiety Scale; Headaches, types of; Health systems; Hearing loss; Heart failure; Heart rate; Illness behavior; Immune function; Insomnia; Integrative medicine; Ischemic heart disease; Kaposi sarcoma; Kuopio Ischemic Heart Disease Study; Learned helplessness; Lifespan; Lifestyle, sedentary; Lipid abnormalities; Loneliness; Lung function; Magnetic resonance imaging; Maternal stress; Mean (average); Medication compliance; Methodology; Mini Mental State Examination; National Cancer Institute; National Children's Study; Negative affect; Neuroendocrine activation; Nigh shift workers and health; Obesity; Occupational therapy; Organ transplantation; Osteopenia/osteoporosis; Oxytocin; Pain; Pain anxiety; Palliative care; Panic attack; Physical activity interventions; Placebo effect; Post-traumatic stress disorder; Racism; Randomized clinical trial; Regression analysis; Resilience; Risk perception; Risky behavior; Secondary prevention; Selye, Hans; Self-medication; Self-monitoring; Stress test; Successful aging; Tachycardia; Theory of planned behavior; Therapy, physical; Tinnitus; Twin studies; Unipolar depression; Usual care; Validity; Vasoconstriction; Vassopressin; Verbal Rating Scale; Weiss, Stephen M.; Women's health; Women's Health Initiative; Worry; Wound healing; Yoga; Zung Depression Inventory.
