

1. Record Nr.	UNINA9910427046803321
Autore	Danturthi R. Sarma
Titolo	70 Tips and Tricks for Mastering the CISSP Exam // by R. Sarma Danturthi
Pubbl/distr/stampa	Berkeley, CA : , : Apress : , : Imprint : Apress, , 2020
ISBN	1-4842-6225-5
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (XXII, 357 p. 11 illus.)
Disciplina	005.8
Soggetti	Data protection Data and Information Security
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Chapter 1. Security and Risk Management -- Chapter 2. Asset Security -- Chapter 3. Security Engineering -- Chapter 4. Communications and Network Security -- Chapter 5. Identity and Access Management -- Chapter 6. Security Assessment and Testing -- Chapter 7. Security Operations -- Chapter 8. Software Development Security -- Chapter 9: Practice Test.
Sommario/riassunto	Learn how to think and apply knowledge in a practical way. Tackling the CISSP exam is vastly different from simply understanding the subject matter. Even the most experienced security professionals can fail because the questions are tricky and ask the test taker to pick the best of the options given. The CISSP exam conducted by ISC2 is the hardest and most rewarded cybersecurity examination. The test has several domains and sub-domains and covers a wide range of topics on security, including cyber and physical building security fields. It also covers breaches, discovery of breaches, and how to report data breaches. Because the subject area is vast and the questions are almost never repeated, it is hard for the exam taker to memorize or quickly discover the given solution. The four options given as answers typically have two very close matches to the question. With quick analysis, it is possible to discover from the verbiage of a question what is truly being asked and learn how to find the closest possible solution without spending too much time on each question. You will: Think outside the box (the CISSP exam demands this of candidates) Quickly discern the

gist of a question, eliminate the distractors, and select the correct answer Understand the use of words such as MOST, BEST, FIRST, LAST in the questions Select the correct answer when multiple options look like possible solutions.
