

1. Record Nr.	UNINA9910427714803321
Titolo	Experimental IR Meets Multilinguality, Multimodality, and Interaction : 11th International Conference of the CLEF Association, CLEF 2020, Thessaloniki, Greece, September 22–25, 2020, Proceedings // edited by Avi Arampatzis, Evangelos Kanoulas, Theodora Tsikrika, Stefanos Vrochidis, Hideo Joho, Christina Lioma, Carsten Eickhoff, Aurélie Névéol, Linda Cappellato, Nicola Ferro
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2020
ISBN	3-030-58219-1
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (XVII, 399 p. 161 illus., 54 illus. in color.)
Collana	Information Systems and Applications, incl. Internet/Web, and HCI, , 2946-1642 ; ; 12260
Disciplina	006.35 025.04
Soggetti	Natural language processing (Computer science) Computer engineering Computer networks Image processing - Digital techniques Computer vision Application software Interactive multimedia Multimedia systems Natural Language Processing (NLP) Computer Engineering and Networks Computer Imaging, Vision, Pattern Recognition and Graphics Computer and Information Systems Applications Media Design
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Full Papers -- Short Papers -- Best of CLEF 2019 Labs -- CLEF 2020 Lab Overviews.
Sommario/riassunto	This book constitutes the refereed proceedings of the 11th

International Conference of the CLEF Association, CLEF 2020, held in Thessaloniki, Greece, in September 2020.* The conference has a clear focus on experimental information retrieval with special attention to the challenges of multimodality, multilinguality, and interactive search ranging from unstructured to semi structures and structured data. The 5 full papers and 2 short papers presented in this volume were carefully reviewed and selected from 9 submissions. This year, the contributions addressed the following challenges: a large-scale evaluation of translation effects in academic search, advancement of assessor-driven aggregation methods for efficient relevance assessments, and development of a new test dataset. In addition to this, the volume presents 7 “best of the labs” papers which were reviewed as full paper submissions with the same review criteria. The 12 lab overview papers were accepted out of 15 submissions and represent scientific challenges based on new data sets and real world problems in multimodal and multilingual information access. * The conference was held virtually due to the COVID-19 pandemic.
