

1. Record Nr.	UNINA9910427857903321
Titolo	Cancer Immunology : Cancer Immunotherapy for Organ-Specific Tumors / / edited by Nima Rezaei
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2020
ISBN	3-030-57949-2
Edizione	[2nd ed. 2020.]
Descrizione fisica	1 online resource (XXX, 581 p. 34 illus., 30 illus. in color.)
Disciplina	616.994061
Soggetti	Oncology Internal medicine Immunology Internal Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Specific Organ Tumors: General Considerations On Immunotherapy -- Vaccination Of Human Solid Tumors: Recent Progress In The Clinical Setting -- Immunotherapy For Pediatric Solid Tumors -- Immunopathology Of Hematological Cancers And Immunotherapy Of Leukemia And Multiple Myeloma -- Immunopathology Of Lymphoma And Immunotherapy Of Hodgkin's Disease And Non-Hodgkin's Lymphoma -- Cancer-Testis Antigens As Targets For The Immunotherapy Of Hematological Malignancies -- Tumor Immunology And Immunotherapy Of Gastrointestinal Tract Cancers -- Immunology And Immunotherapy Of Colorectal Cancer -- Immunopathology Of Hepatobiliary Tumors And Immunotherapy Of Liver Cancers -- Immunology And Immunotherapy Of Pancreatic Tumors -- Immunology Of Cutaneous Tumors And Immunotherapy For Melanoma -- Immunopathology Of Head And Neck Tumors And Immunotherapy Of Squamous Cell Carcinoma -- Immunopathology And Immunotherapy Of Oral Cancers -- Immunopathology Of Bone And Connective Tissue Cancers And Immunotherapy Of Sarcomas -- Immunopathology Of Central Nervous System Cancers And Immunotherapy Of Brain Tumors -- Immunology And Immunotherapy Of Pulmonary Tumors -- Immunopathology Of Urinary System Cancers And Immunotherapy Of

Renal And Bladder Cancers -- Immunopathology Of Cancers Of Male And Female Genitalia Organs And Immunotherapy Of Cervical And Prostate Cancer -- Immunology And Immunotherapy Of Ovarian Cancer -- Revisiting Immunology For Breast Cancer -- Immunology And Immunotherapy Of Graft Versus Host Disease.

---

#### Sommario/riassunto

This book explains the immunology of organ-specific malignancies and discusses novel immunotherapy strategies for their treatment. Since the first, very successful edition of the book was published in 2015, a number of entirely new chapters have been included. The range of cancers considered has accordingly been extended, with coverage of the latest immunotherapy approaches for skin cancers, ocular malignancies, endocrine malignancies, cardiac cancers, vascular cancers, and HPV-associated cancers. In addition, the original chapters have been updated to document the latest advances in immunotherapy for pediatric solid tumors, hematologic malignancies, gastrointestinal tumors, bone tumors, CNS tumors, lung cancer, genitourinary tract tumors, and breast cancer, among others. The book is published as part of the three-volume Springer series *Cancer Immunology*, which aims to provide an up-to-date, clinically relevant review of cancer immunology and immunotherapy. Other volumes in the series address the translational medicine context and bench to bedside immunotherapy. *Cancer Immunology: Cancer Immunotherapy for Organ-Specific Tumors* will be of special value to clinical immunologists, hematologists, and oncologists..
