Note generali	Description based upon print version of record.
Nota di contenuto	Book Cover; Title; Copyright; Foreword; Contents; Illustrations and Documentation; Acknowledgements; The Contributors; Abbreviations; Essays; Politics of Space; National Security Space; Developed Space Programmes; Moderate Space Powers; Commercial Space Actors; International Organizations in Civil Space Affairs; Non-governmental Space Organizations; Public Sector Actors; A-Z Glossary of Space Organizations
Sommario/riassunto	The pace of space exploration has long been dictated by political motivations. This book helps to explain why this is so in the post-Cold War era. Combining essays, a glossary of terms, tables and statistics, this new title from Routledge comes as a welcome addition to this increasingly popular topic. The book: covers theories and concepts, as well as current issues gives a background to international and national space agencies contains essays that cover military, commercial and governmental actors in space politics.
