Soggetti	Plagiarism Plagiarism in literature Plagiarism - Prevention Study skills
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Translated from the Czech by Adéla Válková
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	You've probably heard about plagiarism before. Unfortunately, it's a real problem that we encounter in academia. You might be worried that plagiarism could happen to you, too. It can arise not only intentionally (we don't suspect you of that), but also due to carelessness or lack of knowledge. In this handbook, we will show you how to correctly deal with sources of literature and a bibliography, which you use while writing your seminar papers, thesis and other academic texts – as a matter of fact in any work in which you use the findings of your predecessors.
