Sommario/riassunto	This volume presents recent critical work on Edgar Allan Poe and psychology. It began in 2012 after careful consideration of what was lacking in Poe scholarship. Upon months of combing through archives at McGill University, Concordia University, as well as JSTOR I discovered that nothing on Edgar Allan Poe and psychology had come around in many years. After more consideration I posted a Call for Papers and received at least thirty responses from scholars from all areas of the world. Finally, in August 2018I made a selection of the six manuscripts which reflect the current attitudes toward Poe's work and psychology.
