

1. Record Nr.	UNINA9910433237103321
Autore	Hartmann Katharina
Titolo	Agree to Agree : Agreement in the Minimalist Programme // Katharina Hartmann, Peter W. Smith, Johannes Mursell . Volume 6
Pubbl/distr/stampa	Language Science Press, 2020 Berlin : , : Language Science Press, , 2020
ISBN	3-96110-214-7
Descrizione fisica	1 online resource (1 p.)
Collana	Open Generative Syntax
Soggetti	Language Arts & Disciplines / Linguistics / Syntax Language arts
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>Agreement is a pervasive phenomenon across natural languages. Depending on one's definition of what constitutes agreement, it is either found in virtually every natural language that we know of, or it is at least found in a great many. Either way, it seems to be a core part of the system that underpins our syntactic knowledge. Since the introduction of the operation of Agree in Chomsky (2000), agreement phenomena and the mechanism that underlies agreement have garnered a lot of attention in the Minimalist literature and have received different theoretical treatments at different stages. Since then, many different phenomena involving dependencies between elements in syntax, including movement or not, have been accounted for using Agree. The mechanism of Agree thus provides a powerful tool to model dependencies between syntactic elements far beyond -feature agreement. The articles collected in this volume further explore these topics and contribute to the ongoing debates surrounding agreement. The authors gathered in this book are internationally reknown experts in the field of Agreement.</p>
