	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Description based upon print version of record.
	Nota di bibliografia	Includes bibliographical references and index.
	Nota di contenuto	Introduction: Continuing the transversal ecocritical praxis project -- The question of aesthetic praxis: if literature and art are propaganda, what is ecocritical analysis? -- Back to concerns about the future: Susan Fenimore Cooper and rural hours -- Pessimism, optimism, human inertia and anthropogenic climate change -- Directing the weather,

producing the climate -- Buying agriculture, selling starvation and the failure of business-as-usual in a dystopic future -- Viewing the far fields through an ecofeminist subsistence perspective in an age of land grabs -- From consumables to sustenance through an ecofeminist sufficiency reorientation -- Listening for a way out through a deep yearning for a resounding relationship -- The role of women and gender equality in creating ecotopia.

Sommario/riassunto

Persuasive Aesthetic Ecocritical Praxis analyzes environmental literature and film from a transversal ecocritical orientation with a focus on the aesthetic dimensions in terms of persuasive affects. It emphasizes attention to crucial themes, such as climate change, land dispossession, and differential gender impacts of global economics, as well as scenarios of possible sustainable futures.

Sommario/riassunto	This book gathers several manuscripts dealing with powder metallurgy processing. Both powders production and their processing to reach a final product can be found. In particular, the extraction of Ta and Ti powders from their oxides by the action of Mg is studied. Moreover, the synthesis of ball-milled Mn-Bi powder for magnetic uses is also presented in the book. Regarding powders processing, sintering of Fe-Co-Cu powder mixtures for their use as diamond impregnated tools, electrical resistance sintering of mechanically alloyed amorphous Al-Ti powders, cold pressed Fe-Si-B alloys with magnetic uses, hot extruded functionally graded Al-based materials, space holder sintering of Ti for medical implants, sintering of hard Co-based material, and electrical resistance sintering of Fe-WC hardmetals can be found in this book.

Sommario/riassunto

The same computer games are played by youths all over the world, and worldwide games become matters of concern in relation to children: worries rise about addiction, violence, education, time, and economy. Yet, these concerns vary depending upon where they are situated: in families, legal contexts, industry or science. They also play out differently across countries and cultures. This situated nature of computer game concerns is generally neglected. Not in this book: It gives a detailed mosaic of the complex and multiple everyday realities of computer game concerns in relation to children, as they are variably situated throughout society and across cultures.
