1. Record Nr. UNINA9910437590703321

Titolo	Natural Language Processing and Chinese Computing : Second CCF Conference, NLPCC 2013, Chongqing, China, November 15-19, 2013. Proceedings / / edited by Guodong Zhou, Juanzi Li, Dongyan Zhao, Yansong Feng
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2013
ISBN	3-642-41644-6
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (XXIV, 450 p. 113 illus.)
Collana	Communications in Computer and Information Science, , 1865-0937 ; ; 400
Disciplina	006.35
Soggetti	Natural language processing (Computer science) User interfaces (Computer systems) Human-computer interaction Multimedia systems Application software Natural Language Processing (NLP) User Interfaces and Human Computer Interaction Multimedia Information Systems Computer and Information Systems Applications
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	Fundamentals on language computing -- Applications on language computing -- Machine learning for NLP -- Machine translation and multi-lingual information access -- NLP for social media and web mining, knowledge acquisition -- NLP for search technology and ads -- NLP fundamentals -- NLP applications -- NLP for social media.
Sommario/riassunto	This book constitutes the refereed proceedings of the Second CCF Conference on Natural Language Processing and Chinese Computing, NLPCC 2013, held in Chongqing, China, during November 2013. The 31 revised full papers presented together with three keynote talks and 13 short papers were carefully reviewed and selected from 203 submissions. The papers are organized in topical sections on

fundamentals on language computing; applications on language computing; machine learning for NLP; machine translation and multi-lingual information access; NLP for social media and web mining, knowledge acquisition; NLP for search technology and ads; NLP fundamentals; NLP applications; NLP for social media.
