1.	Record Nr.	UNINA9910437599903321
	Autore	Carpenter Brian E
	Titolo	Network geeks : how they built the internet / / Brian E. Carpenter
	Pubbl/distr/stampa	New York : , : Springer, , 2013
	ISBN	1-4471-5025-2
	Edizione	[1st ed. 2013.]
	Descrizione fisica	1 online resource (ix, 161 pages)
	Collana	Gale eBooks
	Disciplina	004.67 004.67809
	Soggetti	Internet - History Computer networks - History
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Description based upon print version of record.
	Nota di bibliografia	Includes bibliographical references and index.
	Nota di contenuto	Hey Folks! -- Before My Time -- Where Do Geeks Come From? -- Going Up -- In Control -- Two Ivory Towers -- Diversity -- Economy Class -- Parallel Universes -- The Years of Miraculous Growth -- Going Under.
	Sommario/riassunto	The impact on modern society made by the Internet is immeasurable. Yet some questioned "why anyone would want such a thing" when the idea was first introduced. Part history, part memoir and part cultural study, Network Geeks charts the creation of the Internet and the establishment of the Internet Engineering Task Force, from the viewpoint of a self-proclaimed geek who witnessed these developments first-hand. With boundless enthusiasm and abundant humour, Brian Carpenter leads the reader on a journey from post-war Britain to post-millennium New Zealand, describing how the Internet grew into today's ubiquitous, global network, including the genesis of the World-Wide Web in the hotbeds of a particle collider at CERN. Illuminating the science and technology behind the apparent "magic trick" of the Internet, Network Geeks opens a window into the initially bewildering world of the Internet engineering geek. After reading this book, you may wish to join this world yourself.
