Autore	Ostreng Willy
Titolo	Shipping in arctic waters : a comparison of the northeast, northwest and trans-polar passages // Willy streng ... [et al.]
Pubbl/distr/stampa	New York, : Springer, 2012
ISBN	3-642-16790-X
Edizione	[1st ed.]
Descrizione fisica	1 online resource (435 p.)
Collana	Springer-Praxis series in geophysical sciences ; ; 4109
Disciplina	387.091632
Soggetti	Shipping - Arctic regions
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	1. The transportation passages of the arctic ocean and connecting corridors in southern waters -- 2. Geopolitics and big power interests in the arctic -- 3. Ipping, resources, economic trends and alternative means of transport -- 4. Environmental challenges and other operating conditions -- 5. Shipping and arctic infrastructure -- 6. Ocean law, coastal waters, jurisdictional controversies – indigenouse peoples rights -- 7. The northeast, northwest and trans polar passages in comparison. .
Sommario/riassunto	The most comprehensive and richest study undertaken so far of the factors and conditions that will determine the scope and range of shipping and shipping activities in Arctic waters now and in the future. Furthermore, it is the first study comparing the three Arctic transportation corridors, covering a variety of interacting and interdependent factors such as: - geopolitics, military affairs, global warming, sea ice melting, international economic trends, resources, competing modes of transportation, environmental challenges, logistics, ocean law and regulations, corporate governance, jurisdictional matters and rights of indigenous peoples, arctic cruise tourism and marine insurance.
