Sommario/riassunto

Comparative Literature is changing fast with methodologies, topics, and research interests emerging and reemerging. The fifth volume of ICLA 2016 proceedings, Dialogues between Media, focuses on the current interest in inter-arts studies, as well as papers on comics studies, further testimony to the fact that comics have truly arrived in mainstream academic discourse. "Adaptation" is a key term for the studies presented in this volume; various articles discuss the adaptation of literary source texts in different target media - cinematic versions, comics adaptations, TV series, theatre, and opera. Essays on the interplay of media beyond adaptation further show many of the

strands that are woven into dialogues between media, and thus the expanding range of comparative literature.
