

1. Record Nr.	UNINA9910437811703321
Autore	Bajpai P (Pratima)
Titolo	Bleach plant effluents from the pulp and paper industry / / Pratima Bajpai
Pubbl/distr/stampa	Cham, Switzerland ; ; New York, : Springer, c2013
ISBN	3-319-00545-6
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (93 p.)
Collana	SpringerBriefs in applied sciences and technology
Disciplina	363.7394 676.1
Soggetti	Wood-pulp - Bleaching Wood-pulp industry - Waste disposal Papermaking - Chemistry - Environmental aspects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Background -- Pulp and Paper making process -- Pulp Bleaching and Bleaching effluents -- Environmental effects on bleach plant effluents -- Strategies used for reducing the generation of pollutants -- External treatments -- Conclusions and future perspectives -- References.
Sommario/riassunto	This book covers bleach plant effluents- the most polluting effluent from the pulp and paper industry. Some of the consequences of the disposal of bleach effluents into surface waters include- disappearance of benthic invertebrates, a high incidence of fish diseases, and mutagenic effects on the aquatic fauna. This book describes the environmental impact of bleach plant effluents, environmental regulations, and measures to reduce the pollution load by internal process modification and external treatments.
