

1. Record Nr.	UNINA9910437825003321
Autore	Horst R. Kenneth (Ralph Kenneth), <1935->
Titolo	Field manual of diseases on trees and shrubs // R. Kenneth Horst
Pubbl/distr/stampa	Dordrecht ; ; New York, : Springer, c2013
ISBN	94-007-5980-0
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (viii, 207 pages) : illustrations (some color)
Collana	Gale eBooks
Disciplina	634.963097
Soggetti	Trees - Diseases and pests Shrubs - Diseases and pests
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Preface -- Illustrations -- Disease Control and Management -- Host Plants and Their Diseases -- Headings Under Which Diseases Are Described -- List of Land-Grant Institutions and Agricultural Experiment Stations in the United States -- Glossary.
Sommario/riassunto	The Trees and Shrubs manual is a reference manual on diseases which attack trees, shrubs, and vines. The manual identifies various types of diseases which are known to invade these plants located throughout North, Central, and South America. The recordings include diseases caused by fungi, bacteria, viruses, viroids, phytoplasmas, and nematodes. Causal disease agents are described and illustrated in some cases and diseases and disease control measures are also discussed. A manual such as this is never finished since new reports of diseases are continuously reported. Periodicals that are regularly reviewed include Plant Disease, Phytopathology, Review of Applied Mycology, Journal of Economic Entomology, Arborist's News, and Proceedings of the National Shade Conference.
