

1. Record Nr.	UNINA9910407709203321
Autore	Weigand Florian
Titolo	Conflict and transnational crime : borders, bullets & business in southeast Asia // Florian Weigand
Pubbl/distr/stampa	Northampton : , : Edward Elgar Publishing, , 2020
ISBN	1-78990-520-6
Descrizione fisica	1 online resource (164 pages) : illustrations (black and white)
Disciplina	364.135
Soggetti	Transnational crime
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents: 1. Introduction -- 2. Underground struggle and licence to smuggle: The Thailand-Malaysia border region -- 3. Meth and militias: The Myanmar-China border region -- 4. International crisis and instant coffee: The Bangladesh-Myanmar border region -- 5. Rice and ransoms: The Indonesia-Philippines-Malaysia border region -- 6. Conclusions -- References -- Index.
Sommario/riassunto	"Exploring the links between armed conflict and transnational crime, Florian Weigand builds on in-depth empirical research into some of Southeast Asia's murkiest borders. The disparate voices of drug traffickers, rebel fighters, government officials and victims of armed conflict are heard in Conflict and Transnational Crime, exploring perspectives that have been previously disregarded in understanding the field. Weigand's nuanced comparative analysis of four border regions in Southeast Asia counters the stereotypical view that conflict zones are lawless areas in which all kinds of criminal activities flourish. Chapters illustrate the logic that determines the relationship between armed conflict and transnational crime. Further, the book analyses how smuggling economies function in conflict zones, explaining why some rebel groups are involved in the smuggling economy more than others, and why state actors actually play a much more crucial role. This crucial study will be a compelling read for international relations, political sociology and development studies scholars. The in-depth analysis of real-life situations will also greatly benefit policy-makers and aid organisations looking to better support areas at the heart of conflict

and transnational crime"--

2. Record Nr.	UNINA9910777016203321
Autore	Halibozek Edward P
Titolo	The corporate security professional's handbook on terrorism [[electronic resource] /] / Edward Halibozek, Andy Jones, Gerald L. Kovacich
Pubbl/distr/stampa	Amsterdam ; ; Boston, : Butterworth Heinemann, c2008
ISBN	1-281-03509-2 9786611035099 0-08-055188-2
Edizione	[1st edition]
Descrizione fisica	1 online resource (283 p.)
Altri autori (Persone)	JonesAndy <1952-> KovacichGerald L
Disciplina	658.4/77
Soggetti	Corporations - Security measures - Management Private security services - Management Terrorism - Prevention
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 233) and index.
Nota di contenuto	What is terrorism? -- A short history of terrorism -- Old and new groups -- Case studies of terrorist attacks -- Determining the corporate risks to terrorist attacks -- Physically securing corporate premises in order to mitigate attacks -- Protecting employees from terrorist attacks -- Preparing for a terrorist attack : emergency planning and implementation -- Operational security methods for mitigating terrorist attacks -- Coordinating and planning with antiterrorist agencies -- The future global business environment and security needs -- The future of international terrorism -- The successful security professional in fighting terrorism--now and in the future -- Closing thoughts.
Sommario/riassunto	The Corporate Security Professional's Handbook on Terrorism is a professional reference that clarifies the difference between terrorism against corporations and their assets, versus terrorism against

government assets. It addresses the existing misconceptions regarding how terrorism does or does not affect corporations, and provides security professionals and business executives with a better understanding of how terrorism may impact them. Consisting three sections, Section I provides an explanation of what terrorism is, its history, who engages in it, and why. Section II focus

Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Preface -- Breast Cancer Statistics -- Epidemiology of Breast Cancer in Women -- The Complexities of Racial Disparity in Breast Cancer -- Major signaling pathways involved in Breast Cancer -- Breast Cancer Heterogeneity in Primary and Metastatic Disease -- Understanding Triple-negative Breast Cancer -- The biology of the deadly love connection between obesity, diabetes and breast cancer -- Progression of Early Breast Cancer to an Invasive Phenotype -- Pre-clinical modeling of breast cancer – which model to choose? -- Modeling breast cancer progression in 4-D -- Bone Metastasis of Breast Cancer -- Cellular and Molecular Mechanisms Involved in Breaching of The

Blood-Brain Barrier By Circulating Breast Cancer Cells -- Resistance to Anthracyclines and Taxanes in Breast cancer -- Understanding of Tamoxifen Resistance of Breast Cancer based on Integrative Bioinformatics Approaches -- Current understanding of drug resistance mechanisms and therapeutic targets in HER2 overexpressing breast cancers -- Platinum and ruthenium complexes for the therapy of breast cancer diseases.-Development of Notch Pathway Inhibitors for Cancer Therapy -- Systems Biology Approaches in Breast Cancer Studies -- Epigenetic Factors in Breast Cancer Progression -- Breast Cancer Stem Cells and miRNAs -- Breast Cancer Stem Cells: responsible for therapeutic resistance and relapse? -- MicroRNAs in Breast Cancer Research: Progress and Promise -- Index.

---

Sommario/riassunto

This comprehensive book on breast cancer brings together some of the leading experts in an attempt to better understand breast cancer disease, the factors that make it lethal and current research progress, integrating both basic research with clinical implications. This volume covers the following core issues: i) heterogeneity in breast cancer – statistics, epidemiology, breast cancer subtypes, racial disparity and the associated challenges, ii) available and upcoming model systems in breast cancer research, iii) breast cancer metastasis to bones and brain, iv) drug resistance mechanisms in breast cancer against targeted therapies and v) recent developments in breast cancer research – state of current research directions / technologies / approaches. With its comprehensive coverage of topics related to breast cancer, this volume is expected to have a very wide appeal. It serves as an excellent source of reference for students/beginning researchers just setting foot in the field and interested in getting to know all the aspects of this disease. The book should also appeal to advanced and senior researchers by bringing everyone up-to-date with the most current knowledge on various breast cancer topics of utmost relevance.
