

1. Record Nr.	UNINA9910437864603321
Autore	Petrucciani Giovanni
Titolo	Observation of a New State in the Search for the Higgs Boson at CMS [[electronic resource] /] / by Giovanni Petrucciani
Pubbl/distr/stampa	Pisa : , : Scuola Normale Superiore : , : Imprint : Edizioni della Normale, , 2013
ISBN	88-7642-482-2
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (232 p.)
Collana	Theses (Scuola Normale Superiore), , 2239-1460 ; ; 18
Disciplina	530 539.7
Soggetti	Nuclear physics Particle and Nuclear Physics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	The standard model of elementary particles and the Higgs boson -- The CMS experiment at the CERN LHC.- Searches for a Higgs boson at CMS, in the different final states -- Statistical analysis for Higgs boson searches -- Results.
Sommario/riassunto	This book describes the searches that lead to the discovery of a Higgs boson performed at CMS, one of the two main experiments at the CERN LHC. After an overview of the theory and of the CMS experiment, all search channels are described, with emphasis on the ones with the best sensitivity. The statistical methodology used to analyse and the outcomes of the searches and the discovery results are then presented in detail.
