

1. Record Nr.	UNINA9910437904703321
Titolo	Pattern Recognition - Applications and Methods : International Conference, ICPRAM 2012 Vilamoura, Algarve, Portugal, February 6-8, 2012 Revised Selected Papers / / edited by Pedro Latorre Carmona, J. Salvador Sánchez, Ana L.N. Fred
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2013
ISBN	9783642365300 3642365302
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (xiv, 204 pages) : illustrations (some color)
Collana	Advances in Intelligent Systems and Computing, , 2194-5365 ; ; 204
Altri autori (Persone)	Latorre CarmonaPedro SanchezJ. Salvador FredAna L. N
Disciplina	006.3 006.3/12
Soggetti	Computational intelligence Artificial intelligence Image processing - Digital techniques Computer vision Computational Intelligence Artificial Intelligence Computer Imaging, Vision, Pattern Recognition and Graphics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes author index.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	From the Contents: Pattern Recognition as an Indicator of Diagnostic Expertise -- Analysis of Factorial Designs with the Consideration of Interactions via the Stepwise Response Refinement Screener (SRRS) -- Object Detection with Semi-local Features -- Inferring Time Varying Dynamic Linear Model Parameters from a Mixture Model -- A Performance Evaluation of Mutual Information Estimators for Multivariate Feature Selection -- Modelling and Explaining Online News Preferences -- Combining Graph Seriation and Substructures Mining for Graph Recognition.

Sommario/riassunto

This edited book includes extended and revised versions of a set of selected papers from the First International Conference on Pattern Recognition (ICPRAM 2012), held in Vilamoura, Algarve, Portugal, from 6 to 8 February, 2012, sponsored by the Institute for Systems and Technologies of Information Control and Communication (INSTICC) and held in cooperation with the Association for the Advancement of Artificial Intelligence (AAAI) and Pattern Analysis, Statistical Modelling and Computational Learning (PASCAL2). The conference brought together researchers, engineers and practitioners interested on the areas of Pattern Recognition, both from theoretical and application perspectives.
