

1. Record Nr.	UNINA9910713974503321
Autore	Steele Timothy Doak
Titolo	Harmonic analyses of stream temperatures in the Upper Colorado River Basin / / by Timothy Doak Steele
Pubbl/distr/stampa	Lakewood, Colorado : , : U.S. Geological Survey, , 1985
Descrizione fisica	1 online resource (iv, 51 pages) : illustrations, maps
Collana	Water-resources investigations report ; ; 84-4290
Soggetti	Harmonic analysis Water temperature - Colorado River Watershed (Colo.-Mexico) Water temperature Colorado River Watershed (Colo.-Mexico) Analysis Rocky Mountains Region
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references (pages 47-48).

2. Record Nr.	UNINA9910437935103321
Titolo	Mitigating climate change : the emerging face of modern cities / / Anshuman Khare, Terry Beckman, editors
Pubbl/distr/stampa	Heidelberg ; ; New York, : Springer, c2013
ISBN	3-642-37030-6
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (285 p.)
Collana	Springer environmental science and engineering, , 2194-3214
Altri autori (Persone)	KhareAnshuman BeckmanTerry
Disciplina	363.738747
Soggetti	Urban ecology (Sociology) Climatic changes
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Urban policies and practices -- pt. 2. Urban transportation -- pt. 3. Urban remodelling.
Sommario/riassunto	With ever increasing trends in urban consumption and production practices, a call for action to mitigate Climate Change is often seen as a way to foster sustainable development. Considerable attention is now being paid to determine what urban sustainability would include. Today there is a pressing need to broaden our knowledge and apply new concepts and frameworks to development of modern cities. Building on the foregoing, this book attempts to bring together and discuss concepts, tools, frameworks and best practices to cope with the emerging challenges faced by cities today. The book will be of use to policy makers, city planners, practitioners and academics who are starting to project what modern cities would need to do in terms of energy efficiency, mobility, planning and design of habitat and infrastructure and adapting to climate change.
