

1. Record Nr.	UNINA9910437953203321
Autore	Hiller Wolfgang <1955->
Titolo	Earth system modelling . Volume 6 ESM data archives in the times of the grid / / Wolfgang Hiller, Reinhard Budich, Rene Redler
Pubbl/distr/stampa	New York, : Springer, 2013
ISBN	3-642-37244-9
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (97 p.)
Collana	SpringerBriefs in earth system sciences
Altri autori (Persone)	BudichReinhard RedlerRene
Disciplina	550.1 550.1/13 550.113
Soggetti	Global temperature changes - Mathematical models Dynamic climatology - Mathematical models Earth sciences - Research
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	ESM Data Archives in times of the Grid -- Distributed archives, databases and data portals: The Scene -- Harvesting of Metadata with Open Access Tools -- Data Discovery: Identifying, Searching and Finding Data -- User Driven Data Access Mechanisms -- Collaborative Climate Community Data and Processing Grid - C3Grid: Workflows for data selection, pre- and post-processing in a distributed environment -- Earth System Grid Federation: Federated and Integrated Climate Data from Multiple Sources -- Future Perspectives.
Sommario/riassunto	Collected articles in this series are dedicated to the development and use of software for earth system modelling and aims at bridging the gap between IT solutions and climate science. The particular topic covered in this volume addresses the Grid software which has become an important enabling technology for several national climate community Grids that led to a new dimension of distributed data access and pre- and post-processing capabilities worldwide.
