

1. Record Nr.	UNINA9910437965303321
Titolo	Girls at risk : Swedish longitudinal research on adjustment / / Anna-Karin Andershed, editor
Pubbl/distr/stampa	New York, : Springer, 2012, c2013
ISBN	1461441307 9781461441304 1461441298 1-283-91009-8
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (194 p.)
Collana	Advancing responsible adolescent development
Altri autori (Persone)	AndershedAnna-Karin
Disciplina	155.333
Soggetti	Teenage girls - Psychology Adjustment (Psychology) in adolescence Developmental psychology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Chapter 1. Girls at Risk in their own Right; Anna-Karin Andershed -- Chapter 2. Adolescent and Adult Implications of Girls' Pubertal Timing; Thérèse Skoog -- Chapter 3. Eating Disorders and Self-Esteem; Elisabeth Welch, Ata Ghaderi; Chapter 4. Prevention of Depressive Symptoms Among Adolescent Girls; Britt-Marie Treutiger, Lene Lindberg -- Chapter 5. Understanding Violence in Girls With Substance Misuse Problems; Bonamy R. Oliver, Sheilagh Hodgins -- Chapter 6. Life-Span Continuity in Female Aggression and Violence; Anna-Karin Andershed, Debra J. Pepler -- Chapter 7. A Life Course Perspective on Girls' Criminality; Marie Torstensson Levander, Frida Andersson, Sten Levander -- Chapter 8. What Works For Girls With Conduct Problems?; Pia Enebrink -- Chapter 9. The Trouble With "Troubled Girls"; Margareta Hydén, Carolina Øverlien.
Sommario/riassunto	Until recently, boys and men provided the template by which problem behaviors in girls and women were measured. With the shift to studying female development and adjustment through female perspectives comes a need for knowledge of trajectories of at-risk girls' behavior as they mature. Girls at Risk: Swedish Longitudinal Research on

Adjustment fills this gap accessibly and compassionately. Its lifespan approach relates the pathologies of adolescence to later outcomes as girls grow up to have relationships, raise families, and take on adult roles in society. Coverage is balanced between internalizing behaviors, traditionally considered to be more common among females, and externalizing ones, more common among males. The book's detailed review of findings includes several major longitudinal studies of normative and clinical populations, and the possibility of early maturation as a risk factor for pathology is discussed in depth. Contributors not only emphasize "what works" in intervention and prevention but also identify emerging issues in assessment and treatment. An especially powerful concluding chapter raises serious questions about how individuals in the healing professions perceive their mission, and their clients. Although the studies are from one country—Sweden—the situations, and their potential for successful intervention, transcend national boundaries, including:

- Adolescent and adult implications of pubertal timing.
- Eating disorders and self-esteem.
- Prevention of depressive symptoms.
- Understanding violence in girls with substance problems.
- Lifespan continuity in female aggression and violence.
- A life-course perspective in girls' criminality.

With insights beyond the beaten path, *Girls at Risk* provides a wealth of information for researchers, clinicians and related professionals, and graduate students in child and school psychology; psychiatry; education; social work; psychotherapy and counseling; and public health. .
