Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Surgical Management of the First-time Dislocator -- Management of Shoulder Instability in the Collision Athlete -- Arthroscopic Bony Bankart Repair / Stabilization -- Latarjet/Bristow: Indications, Techniques, & Outcomes- Arthroscopic Coracoid Transfer -- Osteochondral Allograft for Glenoid Bone Loss -- Hill-Sachs Remplissage -- Surgical Management of Posterior Shoulder Instability -- Management of SLAP Lesions, Where we are in 2013.
Sommario/riassunto	This book represents a treatise on current options for the management of shoulder instability. Shoulder instability is ubiquitous and international, as is this book. This book addresses shoulder instability-all comers because the extreme variability of patients and pathology must be matched with a variety of techniques. This represents a first for ISAKOS and Springer-let's hope the partnership flourishes! .
