

1.	Record Nr.	UNISA996575021303316
	Titolo	741-2022 : IEEE Standard for Criteria for the Protection of Class 1E Power Systems and Equipment in Nuclear Power Generating Stations // Institute of Electrical and Electronics Engineers
	Pubbl/distr/stampa	New York : , : IEEE, , 2022
	ISBN	1-5044-8586-6
	Descrizione fisica	1 online resource
	Disciplina	621.483
	Soggetti	Nuclear power plants - Electric equipment
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
2.	Record Nr.	UNINA9910437988003321
	Titolo	Oncoplastic and reconstructive breast surgery // Cicero Urban, Mario Rietjens, editors
	Pubbl/distr/stampa	Milano, : Springer, 2013
	ISBN	1-299-40799-4 88-470-2652-0
	Edizione	[1st ed. 2013.]
	Descrizione fisica	1 online resource (449 p.)
	Altri autori (Persone)	UrbanCicero RietjensMario
	Disciplina	616.99 616.994490592
	Soggetti	Mammaplasty Breast - Surgery
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Description based upon print version of record.
	Nota di bibliografia	Includes bibliographical references and index.

Nota di contenuto

SECTION 1: Basic Principles for Oncoplastic and Reconstructive Breast Surgery -- SECTION 2: Partial Breast Reconstruction -- SECTION 3: Breast Reconstruction After Mastectomy -- SECTION 4: Management of Complications -- SECTION 5: Refinements After Breast Reconstruction -- SECTION 6: Breast Reconstruction in Special Populations -- SECTION 7: Other Special Considerations.

Sommario/riassunto

Oncoplastic and reconstructive surgery combines the most up-to-date techniques in plastic surgery with surgery for breast cancer, providing optimal oncologic and aesthetic results by means of a single procedure. In recent years, it has attracted widespread attention worldwide and is now being used ever more frequently and for a wider range of indications. This book demonstrates why oncoplastic surgery represents such an exciting tool for surgeons who undertake breast surgery. Fundamental principles and basic concepts are clearly outlined, and diverse techniques are presented by acknowledged experts from across the world. The emphasis is very much on a “how to do” approach, with detailed guidance and advice on the various techniques. The informative text is supported by a wealth of color illustrations, and accompanying videos of procedures are available via the publisher’s website. Oncoplastic and Reconstructive Breast Surgery will serve as an ideal reference work that will help surgical fellows and specialists to learn about indications and selection of patients, to master technical skills, and to manage complications effectively. .
