

1. Record Nr.	UNINA9910437989803321
Titolo	Abdominal Imaging // edited by Bernd Hamm, Pablo R. Ros
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2013
ISBN	3-642-13327-4
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (LII, 2316 p. 2233 illus., 540 illus. in color. eReference.)
Disciplina	616.0757
Soggetti	Radiology Gastroenterology Internal medicine Hepatology Urology Diagnostic Radiology Imaging / Radiology Gastroenterology Internal Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	Gastrointestinal Imaging: Pharynx and esophagus -- Stomach and duodenum -- Small bowel -- Colon and rectum -- Liver -- Gallbladder and biliary tree -- Pancreas -- Spleen -- Mesentery, omentum -- Peritoneum and abdominal wall -- Genitourinary Imaging: Retroperitoneum -- Kidney and renal pelvis -- Ureter and urethra -- Prostate -- Scrotum and penis -- Ovary and adnexa -- Uterus -- Vagina and vulva -- Imaging during pregnancy.
Sommario/riassunto	In this book a team of leading experts come together to provide a comprehensive overview of modern imaging of the abdomen and pelvis, with detailed sections on both gastrointestinal and genitourinary imaging. Each chapter has an identical structure and focuses on a particular organ or organ system, allowing the reader to approach the field one topic at a time. Indications for a variety of imaging techniques and examination protocols are clearly described, and the imaging

features of normal anatomy and pathologic entities are depicted in an abundance of high-quality images. Care is taken to consider all recent technical developments and new indications, and the diagnostic performance of different imaging modalities is carefully compared. It is anticipated that this book will come to be regarded as the standard work of reference on abdominal and pelvic radiology.
