

1. Record Nr.	UNINA9910437994803321
Titolo	Laser dermatology // David J. Goldberg, editor
Pubbl/distr/stampa	New York, : Springer, 2013
ISBN	1-283-93511-2 3-642-32006-6
Edizione	[2nd ed.]
Descrizione fisica	1 online resource (149 p.)
Altri autori (Persone)	GoldbergDavid J
Disciplina	617.4/770598
Soggetti	Skin - Laser surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Laser Physics and Safety -- Laser Treatment of Vascular Lesions -- Laser Treatment of Pigmented Lesions -- Laser Hair -- Ablative and Non-ablative Fractional Resurfacing -- Laser Treatment of Medical.
Sommario/riassunto	This is the second edition of a well-received book that has been revised and updated to reflect the state of the art in laser and light source technology. After an initial chapter describing the latest understanding of laser physics and safety, subsequent chapters consider laser treatment of vascular lesions, laser treatment of pigmented lesions and tattoos, laser removal of unwanted hair, ablative and non-ablative fractional resurfacing, and use of laser treatment for medical purposes. The book is extremely practical and reader friendly. All chapters are very well illustrated, include quick and clear bullet points, and feature a homogeneous structure covering core concepts, currently available technologies, indications and contraindications, an example of a consent form, and the author's personal treatment approaches. The authors are without exception world experts in the field from North America or Europe.
