

1. Record Nr.	UNINA9910437997603321
Titolo	Atlas of the patellofemoral joint // Vicente Sanchis-Alfonso, editor
Pubbl/distr/stampa	New York, : Springer, 2013
ISBN	1-4471-4495-3
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (267 p.)
Altri autori (Persone)	Sanchis-AlfonsoVicente
Disciplina	617.5/82 617.582 617.582059
Soggetti	Patellofemoral joint - Diseases Patellofemoral joint - Wounds and injuries Patellofemoral joint - Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	pt. I. Etiopathogenic bases and therapeutic implications -- pt. II. Emerging technologies for investigating patellofemoral joint : clinical relevance -- pt. III. Clinical cases commented -- pt. IV. Surgical techniques "How I do it".
Sommario/riassunto	The Atlas of the Patellofemoral Joint is designed to be a detailed visual guide, presenting the reader with a wealth of images that will act as a crucial aid when faced with surgery of the knee and particularly that of the patella. All the images, footnotes and summaries are compiled in order to convey a simple understanding of this complex problem. It is a very practical book, aimed not only to those that already specialize in knee surgery, but also to the general orthopedic surgeon who wishes to learn more about this particular form of surgery.
