

1. Record Nr.	UNINA9910437998803321
Titolo	Principles and practice of modern radiotherapy techniques in breast cancer // Ayfer Haydaroglu, Gokhan Ozyigit, editors
Pubbl/distr/stampa	New York, : Springer, 2013
ISBN	1-283-93387-X 1-4614-5116-7
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (359 p.)
Altri autori (Persone)	HaydarogluAyfer OzyigitGokhan
Disciplina	616.99449062
Soggetti	Breast - Cancer Radiotherapy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. I. General information -- pt. II. Therapeutic results of radiotherapy in breast cancer -- pt. III. Radiotherapy atlas in breast cancer -- pt. IV. Modern radiotherapy techniques in breast cancer -- pt. V. Radiotherapy complications in breast cancer.
Sommario/riassunto	Breast cancer is the most common malignancy among the female population. With advances in systemic therapies and modern radiotherapy techniques, breast cancer patients can have a long life-expectancy. However, it is crucial that radiation therapy is carried out with minimum complications and with the utmost efficiency. Principles and Practice of Modern Radiotherapy Techniques in Breast Cancer provides practical and current theoretical knowledge to the planning and implementation of breast cancer radiation therapy. All aspects of breast cancer are covered, including epidemiology, molecular and biological basis and integrating systemic therapies during all steps of treatment. The illustrated section of this book identifies anatomical structures in daily practice by presenting target and critical structures in actual treatment positions. These images show and mark the anatomical points of the patient lying in the position that breast radiation therapy would be performed. This text serves as a valuable resource for clinicians, residents and fellows

practicing and learning breast cancer radiotherapy.
