

1. Record Nr.	UNINA9910438000103321
Autore	Slootweg Pieter Johannes <1950->
Titolo	Dental pathology : a practical introduction / / Pieter J. Slootweg
Pubbl/distr/stampa	Berlin ; ; Heidelberg, : Springer-Verlag, 2013
ISBN	3-642-36714-3
Edizione	[2nd ed. 2013.]
Descrizione fisica	1 online resource (178 p.)
Disciplina	610 616.07 617.522059 617.6
Soggetti	Teeth - Diseases Dentistry
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Tooth Formation -- Tooth Histology -- Disturbed Form -- Disturbed Tissue structure -- Alterations after Tooth Eruption -- Eruption, Ankylosis, Hallerman Streiff -- Disorders of the Pulp: Denticles internal Resorption, Pulpitis, Periapical Disease, Pulp Polyp -- Periodontal Disease: Gingivitis, Perionitis, Osseous Dysplasia -- Odontogenic Cysts -- Odontogenic -- Hyperplastic follicle -- Syndrome related Changes in Tooth Number, Tooth Form and Eruption.
Sommario/riassunto	This new, updated edition of Dental Pathology will assist in the recognition and diagnosis of gross and microscopic dental abnormalities. Topics covered include disturbances in tooth formation, acquired dental diseases, including caries and its sequelae, periodontal disease, and odontogenic cysts and tumours. Practically applicable knowledge is provided on the histology of the changes that are seen in diseases of the dental and periodontal tissues, and attention is also paid to the histological alterations induced by dental treatment. Compared with the first edition, ca. 50% more illustrations are included and more information is provided on diagnostically difficult cases. This work will be an invaluable companion for dental practitioners who need to make diagnoses in such cases and will also be of value for surgical pathologists, clinical geneticists, and oral and maxillofacial surgeons. .
