

1. Record Nr.	UNINA9910438000503321
Autore	Buy Jean Noel
Titolo	Gynecological imaging : a reference guide to diagnosis / / Jean Noel Buy, Michel Ghossain
Pubbl/distr/stampa	Heidelberg, : Springer, 2013
ISBN	3-642-31012-5
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (840 p.)
Altri autori (Persone)	GhossainMichel
Disciplina	618.1075
Soggetti	Generative organs, Female - Imaging Generative organs, Female - Diseases - Diagnosis Women - Diseases - Diagnosis
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	General -- Ovary -- Peritoneum -- Secondary Mullerian System -- Muller Duct -- Broad Ligament -- Complications of Adnexal Masses -- Pelvic Inflammatory Disease -- Vulva.-Pathology of the Pelvic Floor.
Sommario/riassunto	This book provides a detailed guide to the use and interpretation of color Doppler ultrasound, CT, and MR imaging in patients with gynecological disorders. The advantages and limitations of each modality in imaging different pathologies are clearly presented, and advice is provided on the most appropriate option when ultrasound does not permit a definite diagnosis or fails to determine the precise extension of a lesion. Throughout, emphasis is placed on the importance of microscopic and macroscopic findings for a full understanding of the radiological appearances, and relevant points from the basic sciences are also highlighted. Special attention is paid to issues of differential diagnosis and imaging results that are characteristic of a particular type of lesion. The authors are recognized experts in the field who draw upon their considerable experience to provide an up-to-date reference book highly relevant to everyday clinical practice.
