

1. Record Nr.	UNINA9910438004403321
Autore	Baldessarini Ross J
Titolo	Chemotherapy in psychiatry : pharmacologic basis of treatments for major mental illness / / Ross J. Baldessarini
Pubbl/distr/stampa	New York, : Springer, 2012
ISBN	1-283-69708-4 1-4614-3710-5
Edizione	[3rd ed. 2013.]
Descrizione fisica	1 online resource (278 p.)
Disciplina	616.89 616.8918
Soggetti	Mental illness - Chemotherapy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Modern Psychopharmacology and Psychiatric Treatment -- Antipsychotic Agents.- Antimanic and Mood-stabilizing Agents -- Antidepressant Agents -- Antianxiety Agents -- Status and Prospects for Psychopharmacology.Bibliography -- Index.
Sommario/riassunto	Extensively updated since its second edition in 1985, Chemotherapy in Psychiatry, Third Edition, again addresses basic aspects of modern psychopharmacology and clinical applications of drugs used in the treatment of major psychiatric disorders, with major emphasis on psychotic, bipolar, and depressive disorders. The presentation covers descriptions of the main classes of psychotropic drugs, selected information concerning their known action mechanisms and metabolic disposition, and their clinical applications for acute illnesses and to prevent recurrences and long-term morbidity. Also covered are limitations and adverse effects of each type of agent, with emphasis on the fact that all psychotropic medicines have adverse effects that range from annoying to potentially lethal. Chemotherapy in Psychiatry, Third Edition, outlines the need to balance benefits and risks at the level of individual persons. Authoritative, and an important contribution to the literature, Chemotherapy in Psychiatry, Third Edition is an invaluable resource for physicians, scientists, trainees, and policymakers.
