

1. Record Nr.	UNINA9910438014403321
Titolo	Clinical reproductive medicine and surgery : a practical guide // Tommaso Falcone, William W. Hurd, editors
Pubbl/distr/stampa	New York, : Springer, 2013
ISBN	1-4614-6837-X
Edizione	[2nd ed. 2013.]
Descrizione fisica	1 online resource (345 p.)
Altri autori (Persone)	FalconeTommaso HurdWilliam W
Disciplina	610 612.6 616.6 616.65
Soggetti	Generative organs - Diseases Generative organs, Female - Diseases Infertility Human reproduction Generative organs - Surgery Generative organs, Female - Surgery Generative organs, Female - Surgery - Methodology Reproductive health - Methodology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Ovarian Hormones: Structure, Biosynthesis, Function, Mechanism of Action, and Laboratory Diagnosis -- Hypothalamic-Pituitary-Ovarian Axis and Control of the Menstrual Cycle -- Female and Male Gametogenesis -- Normal Puberty and Pubertal Disorders -- Fertilization and Implantation -- Reproductive Imaging -- Amenorrhea -- Polycystic Ovary Syndrome -- Abnormal Uterine Bleeding -- Menopause -- Male Infertility -- Female Infertility and Fertility Preservation -- Recurrent Early Pregnancy Loss -- Induction of Ovulation -- ART: Clinical and Laboratory Aspects -- Hysteroscopic Management of Intrauterine Disorders: Polypectomy, Myomectomy, Endometrial Ablation, Adhesiolysis, and Removal of Uterine Septum --

Gynecologic Laparoscopy -- Uterine Leiomyomas -- Tubal Disease and Ectopic Pregnancy -- Endometriosis -- Surgical Techniques for Management of Anomalies of the Müllerian Ducts.

Sommario/riassunto

Clinical Reproductive Medicine and Surgery offers a succinct overview of both the medical and surgical management of reproductive disorders, as well as coverage of associated imaging modalities. The book includes chapters on major reproductive endocrinology and infertility issues such as polycystic ovary syndrome and amenorrhea, management of endometriosis and fibroids (including interventional radiology), imaging modalities such as ultrasonography and sonohysterography, preservation of fertility, and recurrent pregnancy loss. Residents, fellows, and practitioners interested in reproductive endocrinology and infertility will find this focused and practical text invaluable.
