

1. Record Nr.	UNINA9910438017303321
Titolo	What's New in Surgical Oncology : A Guide for Surgeons in Training and Medical/Radiation Oncologists // edited by Andrea Valeri, Carlo Bergamini, Ferdinando Agresta, Jacopo Martellucci
Pubbl/distr/stampa	Milano : , : Springer Milan : , : Imprint : Springer, , 2013
ISBN	88-470-5310-2
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (297 p.)
Disciplina	616.994
Soggetti	Surgical oncology Surgery Abdominal surgery Surgical Oncology Abdominal Surgery
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Non-Invasive and Invasive Breast Cancer -- Esophageal Cancer -- Pulmonary Malignancies -- Gastric Malignancies -- Gastro-Intestinal Stromal Tumors (GIST) -- Cancer of the Colon -- Carcinoma of Rectum and Anus -- Hepatobiliary Cancer -- Pancreatic Adenocarcinoma -- Cystic Tumors of the Pancreas -- Adrenal Tumors -- Neuro-Endocrine Abdominal Tumors -- Well-Differentiated Carcinoma of the Thyroid and Neoplasm of the Para-Thyroid Glands -- Hematologic Malignancies of Surgical Interest and Splenic Tumors -- Surgical Emergencies in Cancer Patients and Cancer of Unknown Origin -- New Technology in Cancer Surgical Therapy -- Pediatric Malignancies. .
Sommario/riassunto	The purpose of this book is twofold: First, it provides an up-to-date overview of the field of surgical oncology for surgeons in training. Particular attention is devoted to the principles of surgery, but important aspects of radiation and medical oncology are also discussed. Furthermore, diagnostic, staging, and treatment algorithms are presented that will offer invaluable assistance in management decision making. The second aim of the book is to offer a comprehensive reference source on the role of surgery in curative and

palliative management for medical and radiation oncologists (in practice and in training) and other healthcare professionals involved in the care of cancer patients. The full range of cancer types is covered in a practical, multidisciplinary approach, and additional chapters are devoted to pediatric malignancies, the role of new surgical technologies, and surgical emergencies.
