

1. Record Nr.	UNINA9910438027003321
Titolo	Non-hodgkin lymphoma : prognostic factors and targets // Peter J. Quesenberry, Jorge J. Castillo, editors
Pubbl/distr/stampa	New York, NY, : Humana Press, c2013
ISBN	1-299-33548-9 1-4614-5851-X
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (299 p.)
Collana	Cancer drug discovery and development
Altri autori (Persone)	CastilloJorge J QuesenberryPeter J
Disciplina	616.994460724
Soggetti	Lymphomas - Risk factors Lymphomas
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cancer Stem Cells: A Matter of Perspective -- B and T-cell development -- HIV lymphomagenesis -- Epstein-Barr Virus Lymphomagenesis and Therapeutic Targets -- Antigen driven lymphomagenesis -- Pre-clinical lymphoma models -- Prognostic factors in B-cell lymphoma -- Prognostic factors in T-cell lymphoma -- Prognostic factors in HIV-associated lymphoma -- Future directions on the treatment of aggressive non-Hodgkin lymphoma -- New monoclonal antibodies for indolent non-Hodgkin lymphomas -- Current therapies for T-cell lymphoma -- Stem Cell Transplantation for lymphoma -- Autologous stem cell transplantation in non-Hodgkin lymphoma -- The role of Stem Cell Transplantation for HIV-associated lymphoma -- Stem Cell Transplantation for T-cell lymphoma -- Index.
Sommario/riassunto	Recent developments in the therapy of non-Hodgkin lymphoma have improved response and survival rates in patients with these conditions. This book is focused on the biology, prognostic factors and novel targets of non-Hodgkin lymphoma. We believe that understanding the pathophysiology of non-Hodgkin lymphoma provides a mean to improve its risk-stratification and treatment. This book is intended for medical and healthcare professionals involved in the research and clinical care of patients with non-Hodgkin lymphoma.
