

1. Record Nr.	UNINA9910438058803321
Autore	Schwalbe K.-H (Karl-Heinz)
Titolo	Guidelines for applying cohesive models to the damage behaviour of engineering materials and structures / / Karl-Heinz Schwalbe, Ingo Scheider, Alfred Cor nec
Pubbl/distr/stampa	Berlin ; ; New York, : Springer, 2012
ISBN	1-283-53183-6 9786613844286 3-642-29494-4
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (96 p.)
Collana	SpringerBriefs in applied sciences and technology, , 2191-530X
Altri autori (Persone)	ScheiderIngo Cor necA (Alfred)
Disciplina	620.1/126
Soggetti	Fracture mechanics - Mathematical models Materials - Mechanical properties - Mathematical models
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Scope and Significance -- Introduction -- Material Characterization -- Applications -- Open Issues.
Sommario/riassunto	This brief provides guidance for the application of cohesive models to determine damage and fracture in materials and structural components. This can be done for configurations with or without a pre-existing crack. Although the brief addresses structural behaviour, the methods described herein may also be applied to any deformation induced material damage and failure, e.g. those occurring during manufacturing processes. The methods described are applicable to the behaviour of ductile metallic materials and structural components made thereof. Hints are also given for applying the cohesive model to other materials.
