

1. Record Nr.	UNINA9910438107203321
Autore	Zhang Wentao
Titolo	Photoemission Spectroscopy on High Temperature Superconductor : A Study of Bi ₂ Sr ₂ CaCu ₂ O ₈ by Laser-Based Angle-Resolved Photoemission // by Wentao Zhang
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2013
ISBN	1-283-91044-6 3-642-32472-X
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (146 p.)
Collana	Springer Theses, Recognizing Outstanding Ph.D. Research, , 2190-5053
Disciplina	539.744
Soggetti	Superconductivity Superconductors Spectroscopy Microscopy Nanotechnology Strongly Correlated Systems, Superconductivity Spectroscopy and Microscopy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Introduction -- Angle-Resolved Photoemission Spectroscopy -- Growth of Bi ₂ Sr ₂ Ca _{1-x} Dy _x Cu ₂ O ₈₊ Single Crystals -- Nodal Electron Coupling in the Bi ₂ Sr ₂ Ca ₁ Cu ₂ O ₈₊ -- High Energy Dispersion in Bi ₂ Sr ₂ Ca ₁ Cu ₂ O ₈₊ -- Normal Electron Self-Energy and Pairing Self-Energy in Bi ₂ Sr ₂ CaCu ₂ O ₈ -- Superconducting Gap and Pseudogap in Bi ₂ Sr ₂ CaCu ₂ O ₈₊ -- Summary.
Sommario/riassunto	This book mainly focuses on the study of the high-temperature superconductor Bi ₂ Sr ₂ CaCu ₂ O ₈ by vacuum, ultra-violet, laser-based, angle-resolved photoemission spectroscopy (ARPES). A new form of electron coupling has been identified in Bi ₂ 212, which occurs in the superconducting state. For the first time, the Bogoliubov quasiparticle dispersion with a clear band back-bending has been observed with two peaks in the momentum distribution curve in the superconducting state

at a low temperature. Readers will find useful information about the technique of angle-resolved photoemission and the study of high-temperature superconductors using this technique. Dr. Wentao Zhang received his PhD from the Institute of Physics at the Chinese Academy of Sciences.
