

1. Record Nr.	UNINA9910438132103321
Titolo	Geriatric imaging // Giuseppe Guglielmi, Wilfred C. G. Peh, Ali Guermazi, editors
Pubbl/distr/stampa	Berlin ; ; New York, : Springer, 2013
ISBN	3-642-35579-X
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (xvi, 1127 pages) : illustrations (some color)
Collana	Gale eBooks
Altri autori (Persone)	GuglielmiGiuseppe PehWilfred C G GuermaziAli
Disciplina	618.970754
Soggetti	Geriatric neuropsychiatry Brain - Imaging
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction: Epidemiology of Ageing -- Musculoskeletal -- Cardiovascular -- Respiratory -- Head and Neck -- Neuroradiology -- Gastrointestinal -- Urogenital -- Hematologic/Lymphatic -- Breast -- Interventional Procedures in the Elderly.
Sommario/riassunto	In the elderly, the coexistence of various diseases, the presence of involuntal and degenerative changes, and the occurrence of both physical and cognitive problems represent "the norm." It is therefore important to know how to distinguish the healthy elderly from those in need of treatment as a sound basis for avoiding overdiagnosis and overtreatment. This aspect is a central theme in Geriatric Imaging, which covers a wide range of applications of different imaging techniques and clearly explains both the potential and the limitations of diagnostic imaging in geriatric patients. Individual sections are devoted to each major region or system of the body, and a concluding section focuses specifically on interventional procedures. The book, written by recognized experts in the field, is superbly illustrated and will be an ideal resource for geriatricians, radiologists, and trainees.
