Nota di contenuto	Death is only a dream : 1947-1948 -- To us, that would have been the impossible : Columbia Records, 1949-1952 -- Some of our best recordings were the Mercurys : 1953-1958 -- "How mountain girls can love" : the early King/Starday years, 1958-1962 -- "Stone walls and steel bars" : the later King years 1963-1966.
Sommario/riassunto	Carter and Ralph Stanley were key figures in the development of bluegrass music in postwar America. This book studies their life and work. With a foreword by Neil V. Rosenberg, discographies, notes, bibliography, and indices. Black & white photos. "It is all here: dates and locations; the roster of players on well-known and obscure sessions alike; master/matrix and catalog/release numbers, with reissue information; a full discography sorting out the Stanleys' complex recording history; the stories behind the music, and exquisitely informed biographical notes that place events in the context of the brothers' careers and lives"--Back cover.

2. Record Nr.	UNINA9910438138303321
Autore	Kleinbaum David G
Titolo	ActivEpi Companion Textbook : A supplement for use with the ActivEpi CD-ROM // by David G. Kleinbaum, Kevin M. Sullivan, Nancy D. Barker
Pubbl/distr/stampa	New York, NY : , : Springer New York : , : Imprint : Springer, , 2013
ISBN	1-4614-5428-X

Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction -- Objectives and Methods of Epidemiologic Research -- Validity of Epidemiologic Research -- Epidemiologic Analysis -- Glossary -- Index.
Sommario/riassunto	This Companion Textbook supplements the ActivEpi CD-ROM, sold separately. The ActivEpi CD-ROM provides a multimedia presentation of concepts, commonly taught in an introductory epidemiology course. ActivEpi mixes a full array of media to motivate, explain, visualize and apply epidemiological concepts. Virtually all of the material on the ActivEpi CD-ROM is included in the Companion Textbook. Because individuals differ in their learning skills, the ActivEpi CD-ROM and the ActivEpi Companion Textbook offer readers different but related options on how to learn epidemiology. The Textbook can be used as a hardcopy reference of the textual materials contained on the CD-ROM, as a resource for the practice exercises, as a general reference, or even a self-contained textbook. The ActivEpi CD-ROM uses: Video to instill real-world motivation for learning and applying epidemiological concepts Narrated Expositions to teach the concepts using high-quality audio synchronized with text, pictures, and animations Quizzes to provide self-evaluation of basic terms and concepts Data Desk to provide practice applying the methods learned to real data Navigational Tools such as a dynamic table of contents, index and glossary, to allow

easy-to-use methods for working through content Web Links to augment the material on the CD with complementary content authored by others. ActivEpi includes 15 lessons and over 50 hours of content via more than 250 launchable activities and homework exercises. It can be used in a variety of teaching formats: distance learning, self-paced learning, on-campus courses, and short courses. For the latest additions to ActivEpi, visit David Kleinbaum's website. <http://www.sph.emory.edu/~dkleinb/activepi.htm>.
