

1. Record Nr.	UNINA9910438151703321
Titolo	Advances in Hypercomplex Analysis / / edited by Graziano Gentili, Irene Sabadini, Michael Shapiro, Franciscus Sommen, Daniele C. Struppa
Pubbl/distr/stampa	Milano : , : Springer Milan : , : Imprint : Springer, , 2013
ISBN	1-283-90981-2 88-470-2445-5
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (148 p.)
Collana	Springer INdAM Series, , 2281-5198
Altri autori (Persone)	GentiliGraziano
Disciplina	515.9
Soggetti	Mathematics Mathematical analysis Analysis
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	C. Bisi, C. Stoppato: Regular vs. classical Mobius transformations of the quaternionic unit ball -- F. Brackx, H. De Bie, Hennie De Schepper: Distributional Boundary Values of Harmonic Potentials in Euclidean Half-space as Fundamental Solutions of Convolution Operators in Clifford Analysis -- F. Colombo, J.O. Gonzalez-Cervantes, M.E. Luna-Elizarraras, I. Sabadini, M. Shapiro: On two approaches to the Bergman theory for slice regular functions -- C. Della Rocchetta, G. Gentili, G. Sarfatti: A Bloch- Landau Theorem for slice regular functions -- M. Ku, U. Kahler, P. Cerejeiras: Dirichlet-type problems for the iterated Dirac operator on the unit ball in Clifford analysis -- A. Perotti: Fueter regularity and slice regularity: meeting points for two function theories -- D.C. Struppa: A note on analytic functionals on the complex light cone -- M.B. Vajiac: The S-spectrum for some classes of matrices -- F. Vlacci: Regular Composition for SliceRegular Functions of Quaternionic Variable.
Sommario/riassunto	The work aims at bringing together international leading specialists in the field of Quaternionic and Clifford Analysis, as well as young researchers interested in the subject, with the idea of presenting and discussing recent results, analyzing new trends and techniques in the area and, in general, of promoting scientific collaboration. Particular

attention is paid to the presentation of different notions of regularity for functions of hypercomplex variables, and to the study of the main features of the theories that they originate.
