| Sommario/riassunto | <p>This edited volume offers a broad understanding and particular visions of Kenya in the first quarter of the twenty-first century. By bringing together rigorous yet accessible contributions, it shows how, since the 2002 transition, Kenya has been striving for change through economic modernisation and political liberalisation. The planned transformations are coming to fruition, even if the legacies of the past and political habits are slowing down the process. The various chapters take us from developmental capitalism to extreme poverty and enduring inequalities, from reforms on paper to mixed results in multiple sectors: decentralised governance, natural resources, land, and education. They also explore Kenya's ancient and colonial history and the diversity of its population. Thus, the book helps understand contemporary political, religious and community cleavages, the asymmetries between towns and the countryside, between Nairobi and the coast, in a country open to the world, as much through trade and finance as through art networks.</p> <p>Cet ouvrage offre une saisie synthétique et des visions particulières du Kenya en ce premier quart du XXI^e siècle. Il rassemble des contributions rigoureuses et accessibles pour montrer comment, depuis l'alternance de 2002, le Kenya s'efforce de changer par la modernisation économique et la libéralisation politique. Les transformations annoncées voient le jour, même si les legs du passé et les habitus politiques en ralentissent la marche. Les différents chapitres nous mènent du capitalisme développemental kényan à la grande pauvreté et aux inégalités vivaces, des réformes sur le papier aux mises en œuvre en demi-teinte dans de multiples secteurs : gouvernance décentralisée, ressources naturelles, foncier, éducation. L'histoire ancienne et coloniale, la diversité du peuplement au Kenya permettent de mieux comprendre les clivages politiques, religieux et communautaires, les asymétries entre villes et campagnes, entre Nairobi et la côte,...</p> |

| Note generali | Description based upon print version of record. |
| Nota di bibliografia | Includes bibliographical references. |
| Nota di contenuto | Core assumptions underlying the micro portfolio approach to public debt management -- A public finance framework for long-term sovereign funding decisions -- Recommendations for broader debt management objectives -- A new approach to model the shape and dynamics of the term structure of interest rates -- Stochastic modeling of the term structure dynamics -- Empirical validation of term structure simulations. |
| Sommario/riassunto | Against the background of the financial-cum-sovereign debt crisis, government debt managers are currently faced by a challenging environment. One key element in that respect is the analysis and forecast of interest rates, which is important for achieving the strategic objective of low borrowing costs. Anja Hubig develops a new mathematical method to estimate the term structure of interest rates that is adopted to describe the term structure dynamics within a stochastic setting. The introduced model is capable of capturing the complex behavior of the entire yield curve with a reduced set of parameters. It essentially ensures a comprehensive analysis of the costs and risks associated with individual funding strategies, and thus, effectively supports the selection of a long-term optimal debt portfolio composition. Contents · The Standard Micro Portfolio Approach to Sovereign Debt Management · New Application of the Capital Budgeting Approach to Sovereign Debt Management · Joint |

Modeling of Yield Curve Shape and Dynamics · Empirical
Validation of Stochastic Term Structure Simulations · Target Groups
· Researchers and students in the field of finance
· Practitioners in finance with a focus on fixed income portfolio
and risk management, as well as experts in governmental institutions
dealing with public debt management · About the Author Dr. Anja
Hubig has prepared her dissertation under the supervision of Prof.
Richard Stehle, Ph.D. at the Institute for Banking and Asset Markets,
Humboldt University of Berlin in parallel to her prior work at
Bundesrepublik Deutschland-Finanzagentur GmbH. Since July 2012, as
a director, she is in charge of the Treasury Division at Ostsächsische
Sparkasse Dresden. · About the Editors The series Empirische
Finanzmarktforschung is edited by Prof. Dr. Jan Pieter Krahn and
Prof. Richard Stehle, Ph.D.
